Dear Homeowner,

In keeping with our efforts to ensure homeowners are updated with the latest developments at The8, we hope you find the latest information of interest.

#### **THE8 PROJECT UPDATE - OCTOBER 2016**

The mock up apartment is almost complete and will soon be ready for viewing. All fixtures and fittings have been approved and the show apartment is currently being de-snagged prior to IFA opening for client access. The kitchen, cabinetry, marble, joinery, bathroom lighting etc are all in the final stages of finishing and the Italian Designers' scope of work at the The8 residences has been approved. The Hotel scope of work is currently under review and the designer appointed for the residences will also be invited to tender for the Hotel along with other companies who have expressed an interest in the project. Once the mock up apartment has been signed off as complete we look forward to sending you photos of the finished product which you will be able to view by appointment.

#### **Block A**

Zone A1 slab, walls and columns are 100% complete.

Zone A2 up to RF (Roof Floor) is 100% complete with only the upper roof slab, columns and walls to finish.

#### **Block B**

Work is complete up to the RF level and only the UR (upper floor) slabs in Zones B1 and B2 need completing.

Zone B3 slab, columns and walls are at ground floor level. We will keep you updated of progress in this regard.

#### **Block C**

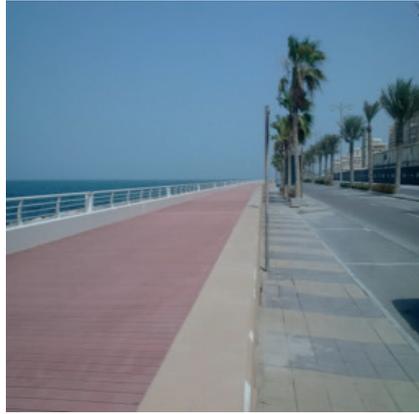

Zone C3 slab, columns and walls are completed up to the 6th floor level.

Zones C1 and C2 have reached 2nd floor level.

Block C will follow the exact same completion program as blocks A and B.

Construction work at The8 continues at a steady pace and the photos enclosed in this months' update show a section of The8's external elevation and the newly laid pedestrian promenade that runs along the periphery of the Palm Jumeirah and past The8 development.
